

# QVidium™ Stream Viewer Software

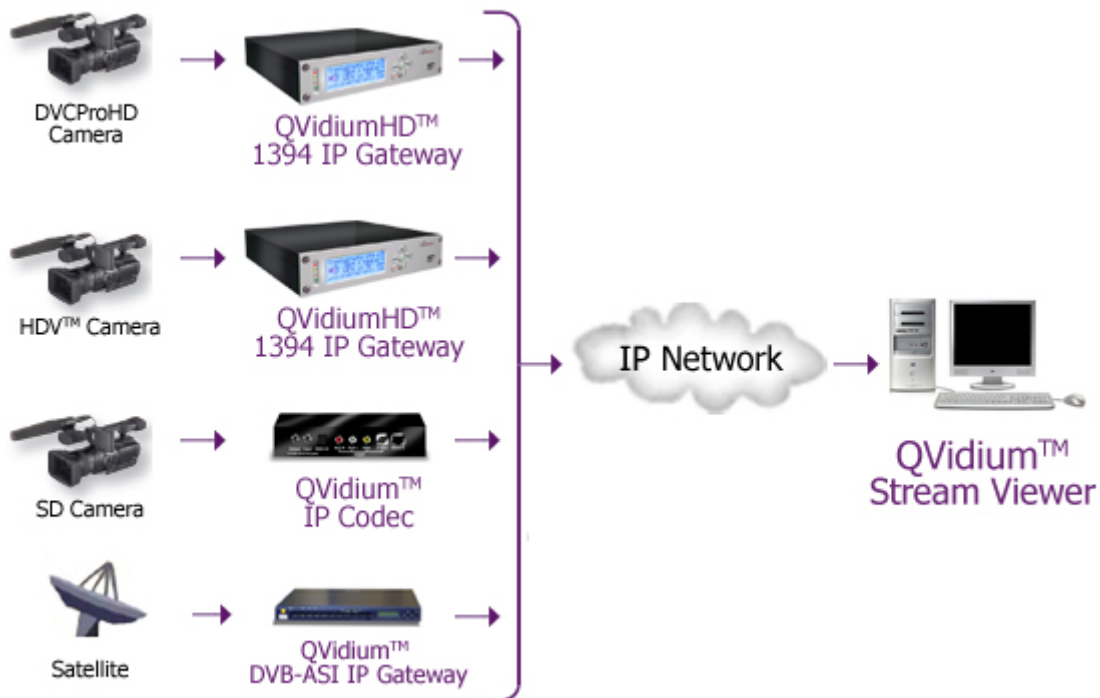

## Key Features:

- ▶ QVidium Patent-pending ARQ
- ▶ Pro-MPEG Forum FEC Code of Practice #3 Releases 1 and 2
- ▶ Displays compressed video in the following formats:
  - 116 Mbps DVCPProHD, 58 Mbps DVCPPro50, 29 Mbps DVCPPro25 or DV
  - 19.75 Mbps 720p HDV™ MPEG-2 TS
  - 25 Mbps 1080i HDV™ MPEG-2 TS
  - Up to 100 Mbps MPEG-2 TS, SD/HD MPEG2 and SD MPEG4
- ▶ Displays SD and HD video to PC's VGA or DVI interface.
- ▶ DVCPPro and DV audio, MPEG-1 Audio, MPEG-2 Audio and AC-3 Audio

## Major Benefits:

- ▶ **DVCPProHD support:** Unique solution for viewing DVCPProHD streams over IP on PC hardware.
- ▶ **Incorporates QVidium's Patent-pending ARQ:** QVidium's ARQ provides the most reliable video transport over any IP network, including wireless and unconditioned IP networks.
- ▶ **Incorporates Pro-MPEG FEC COP #3 Releases 1 and 2:** Full compliance with the latest Pro-MPEG Forum standard.
- ▶ **Cost effective monitoring:** View most kinds of video encapsulated into a MPEG-2 Transport Stream on cost effective PC hardware.

## Application Example:
